Fact Sheet – ORIS Certified Monitor™

About ORIS Certified Monitor

ORIS Certified Monitor is a quality tool for monitor certification. It uses all of the features of ORIS Certified Proof but with a rendering of the control bar as a series of flashed patches on the monitor, ORIS Certified Monitor performs the same certification to industry or custom standards including spot colors and provides an instant readout.

Feature	Benefit

• Support of Industry standard targets
    o Fogra Media Wedge
    o IDEAlliance ISO 12647-7 2007
• Included Industry standard tolerancing
    o SWOP
    o FOGRA
    o 3DAP
    o ISO
	• Consistency and accuracy to standards
	
	• Ease of communicating standard compliance

• Automatic measurement evaluation • Trend reports • Windows and Macintosh version • Spot color measurement to standard libraries • Customizable targets and tolerances	• Quick results • Monitoring device performance • Flexibility of platform • Accuracy to known colors • Flexible and ease of use

Software

- **Operating System:** Windows 2003 Server, XP Professional, Vista or Mac OS 10.2.8 or higher

Hardware

- **Processor:** Intel Pentium Dual Core or higher
- **Memory:** 1 GB RAM, min. 80 GB hard disk

The hardware requirements depend on the operating system used, and on the number and type of output devices.
