CGS Fact Sheet – ORIS COLOR TUNER // WEB™

About ORIS Color Tuner//Web

Afraid of making the wrong decision in proofing? Don't know whether to go hard or soft? CGS removes the risk of making the wrong decision by offering the industry's only integrated hard-copy and virtual proofing system. By combining the features of the two market leading products, ORIS Color Tuner™ and ORIS Soft Proof™, into the brand-new ORIS Color Tuner//Web, CGS provides the ultimate flexibility in color proofing technology – from one package and with risk-free and reliable results.

With the new ORIS Color Tuner//Web CGS introduces a brand-new web-based version of its product line. ORIS Color Tuner//Web allows users to control and track print jobs from anywhere in the world via the internet. The new user interface efficiently integrates the software features of ORIS Color Tuner, ORIS Soft Proof and ORIS Certified Proof into one product, making it easier to manage and monitor global remote proofing - increasing important with the popularity of embedded measurement devices. Color Tuner//Web 1.0 fully supports the new Epson SpectoProofer. The intuitive and user-friendly interface allows users to work quickly and efficiently within a closed-loop environment.

Feature List	Benefits List
• Web based	• Flexibility – operating system- and browser independent
• Softproof	
• Integration of Certified Proof	• Clear communication across continents
• Full integration of Epson SpectroProofer	• Time- and cost savings on shipping and media costs
• Patented iterative color matching	
• iPhone ready	• Ease of use
• Platform independent client	• No client software required
• Client – Server Architecture	• Simple file upload no extra software required
• Color management – soft and hard proofs matched to the same standards	• Speed – real-time viewing of contract proof quality images anywhere in the world
○ SWOP	
○ FOGRA	
○ 3DAP	• Creative design programs can run simultaneously – for web based intercommunication
• Printer setup wizard	
• Selective colour correction (fine tuning)	
• Profile smoothing	• Environmentally friendly
• Independent and iterative spot color matching	• Easy integration
	• High network security
• Support of Hexachrome/ n-Channel	• Client side: Low cost hardware
• Continuous- and Halftone dot proofing option for color-accurate screened proofs	
• Accepts all major digital file formats	
• Optimized Scatter Proof Function	
• Easy creation of Media Profiles	
• Transferable/ Exportable Setups	
• Drives any windows based printer	
• Uses the original screening and resolutions of the printer manufacture	

Software

- Operating System: Windows 2003 Server, Windows Server 2008, Windows XP Professional, Windows Vista

Hardware

- Processor: Intel® Core™ 2 Quad, Q6600 or similar, 2.4 GHz, 2 x 4 MB Level 2 (L2) Cache
- Memory: 500 GB HDD or Raid System
- Video: DVI, supporting DirectX 9c, enabled Direct 3D acceleration

The hardware requirements depend on the operating system used and on the number and type of output devices.

Supported measuring instruments

- Current models from X-Rite (incl. former GretagMacbeth devices)

- Barbieri Spectro Swing
